Chemistry, food and pharmaceutical texts

KroghSprog offers

TRANSLATION

Quality documents, reports, instruction guides, patents, brochures, etc.

PROOFREADING

Proofreading which ensures consistency in your own individual choice of terminology.

EDITING

Adaptation to a specific target group and/or to reference material.

KROGHSPROG has a broad network of highly specialised freelance translators who all have a special flair for languages.

They are

- chemists
- engineers
- medical doctors
- and linguistics experts

all of whom have long experience in translating technical texts.

LANGUAGES AVAILABLE

Danish, English, French and German.

CUSTOMERS

The chemical industry, the pharmaceutical industry, the food and agricultural sectors, patent agencies, authorities, etc.

KroghSprog was established by Mette Krogh in 2002. She has a Master's degree in chemical engineering from DTU, the Technical University of Denmark. She has worked with writing and translation of technical texts since 1987.
